

LEMONGO

Waterless Hand Lotion

LEMONGO Waterless Hand Lotion can be used with or without water and contains a very pure cleaning agent. The new formula contains emollients to help condition the skin, preventing dryness and cracking even after multiple washings. Its fragrance leaves a slight “just cleaned” smell on the hands.

With a powerful cleaning base and a supporting blend of surfactants, LEMONGO Waterless Hand Lotion can effectively remove:

Grime	Grease	Carbon	Asphalt	Graphite
Tar	Flux	Oil	Adhesives	

Directions of Use:

1. Apply a small amount of LEMONGO Waterless Hand Lotion to dry hands.
2. Rub hands together.
3. Wipe hands with a paper towel or clean cloth, or rinse with water and dry.

Note:

Some individuals may be sensitive to ingredients in this product.

Specifications:

pH	7-8
Specific Gravity	0.99
Viscosity	<100,000 cps @ 20°C
Colour	White
Flash Point	None
Stability	a) Shelf at 24°C for minimum of one year b) Accelerated at 49°C for 60 days minimum c) Withstands 3 cycles of freezing and thawing
Phosphate Free	
VOC Compliant
